Choose TSI:

Manufacturer of innovative glucosamine products GlucosaGreen® and Pureflex®

An easy-to-swallow, once-daily, single pill was considered most important when purchasing a supplement A key advantage of the TSI glucosamine manufacturing process is it allows for GlucosaGreen® and Pureflex® to be customized; reduced to more convenient compact tablet or capsule forms to meet the needs of brands and consumers.

TSI glucosamine products help build consumer and brand confidence:

Manufactured, distributed and supported by TSI only (no third parties)

Manufactured to the highest cGMP standards

- Safety and toxicity tested and verified
- USP, JP and EP Compendial grades available

GRAS affirmed

cGMP: Current Good Manufacturing Practice; GMO: genetically modified organism; GRAS: Generally Recognized as Safe.

What are the benefits of being able to customize compact tablet or capsule forms?
